**BUSINESS ADMINISTRATION UNDERGRADUATE STUDENTS AND THEIR ENTREPRENEURSHIP DREAM:
AN EXPLORATORY STUDY**

Abstract: This study refers to entrepreneurship and its relation with entrepreneurship culture of business administration students from Mato Grosso do Sul State Federal University (UFMS), in Brazil. An exploratory research was conducted among 68 students having as a goal relate entrepreneurship impact on professional goals with their placement on the market. A vast majority from the researched students shows interest in opening their own business, but after graduating they rather find a job, for giving them more financial security.
